WirtschaftsWoche Names müller co-ax gmbh the World Market Leader for the Sixth Time in a Row

müller co-ax gmbh has once again been recognized as a worldwide market leader by the renowned business magazine WirtschaftsWoche for the year 2026. This means that the company maintains its leading position in the categories of coaxial valve technology and high-pressure valves, once again demonstrating its technological leadership in the global market.

WirtschaftsWoche published the current list of world market leaders in an exclusive special edition at the beginning of November. The müller coax group, which includes müller co-ax gmbh, m-tech gmbh, and müller quadax gmbh, again meets all the criteria of the World Market Leader Index of the University of St. Gallen and the Academy of German World Market Leaders (ADWM). These criteria include a leading market position, an international presence on at least three continents, minimum annual sales of €50 million, an export share of over 50%, and owner management with at least a 50% stake in the DACH region. The renewed inclusion in this top group confirms the sustained innovative strength and international significance of the entire coax group of companies.

The successive award is proof of the technological excellence of coaxial valve technology and high-pressure valves, as well as the global relevance of the company. "This sixth consecutive award is a significant milestone for us and confirms our commitment to developing technologically advanced and reliable solutions for the most complex applications," explains Antonio Erriu, Managing Director of müller co-ax gmbh. "Our products set standards worldwide, especially when maximum process reliability and technical precision are needed."

Müller co-ax gmbh remains the world market leader in the categories of coaxial valve technology and high-pressure valves.

The company headquarters of müller co-ax gmbh in Forchtenberg
